

Tips

Your general practitioner can prescribe you help with Spitex (care services). In addition, you will be reimbursed for the costs of a home help according to your insurance contract.

Further information

- «www.pro-senectute.ch»
- «www.krebsliga.ch/palliative-care»
- The Palliative Care Association is focussed on providing advice and information to make it possible to provide care at home even under difficult conditions. You can find information on the services in your region at: «www.palliativkarte.ch» or on the home page: «www.palliativ.ch» (anklicken: "«[palliativkarte.ch](http://www.palliativkarte.ch)»")
- It may be helpful to buy groceries and other everyday products online and have your shopping delivered to your home.

Help at home

Coping with the demands of daily living requires a great deal of strength and energy from cancer patients and those close to them. Tasks which were previously accomplished without any difficulty may become challenges after a stay in hospital or as the disease progresses.

This information leaflet is intended to give you an overview of the various support services in the area of care, self-help groups and supply of equipment.
